Dianne R. Nielson:

The Huntington Cleveland Irrigation Company is concerned about the mining operations of the Co-op Mine. Water intercepted by mining operations, taken inside the mine, is taking water from springs and streams from the mountain tops.

Huntington Cleveland Irrigation Company has the first water filings in the Huntington Creek Drainage. Water intercepted by, the Co-op Mine, mining process is taking water that is covered under the Huntington Cleveland Irrigation Company filings.

The Board of Directors, of the Huntington Cleveland Irrigation Company wants to go on file, this fifth day of February, 1991, showing our concerns about this mining operation, at the Co-op Mine, and monitoring and measuring of this water.

Sincerely,

HUNTINGTON CLEVELAND IRRIGATION COMPANY
